

HITACHI

French Door Refrigerator 569 L

The Art of Ease
The Art of Ease

Product Code RWB640VT0X-1 MGW

Effortless Door Opening Experience

Auto Door with Illuminated Handles

Automatic LED lights illuminate the door handles when you approach it and the Auto Door technology provides an effortless opening experience like never before. Even when the doors are full, they can still open automatically at the touch of a button.

Illuminated Door Handles

Illuminated Door Handles The refrigerator can sense when a person is close and will automatically illuminate the door handles.

Seamless Touch-Open Door

At the touch of a button automatically open the refrigerator or freezer door.

Human Sensor

Illuminated Handle (with Human sensor) By illuminating the glossy handle with the light of the LED, it gives a luxurious impression suitable. In addition, the "Touch panel for Auto door" and "Illuminated Handle" that respond to the Human sensor will give a smart glow. And If you open freezer compartment, the "Illuminated Handle" illuminates inside, so bright and easy to see.

Seamless Slide-Open Door

Simply slide your finger across the button and both the refrigerator and freezer doors will automatically open.

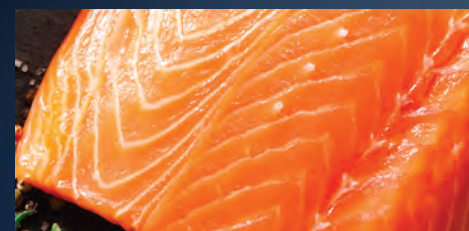

Hitachi Original Vacuum Compartment

Vacuum-sealed for Freshness

Platinum Catalyst with Ruthenium Vacuum Compartment

The secret to longer-lasting freshness is reduced oxygen levels.

Hitachi's original preservation extracts air to maintain approx. 0.8 atm of vacuum preservation. With unique Platinum Catalyst, chilled meat, fish and dairy products are kept fresh and nutritious, and ready.

Retain Nutrients and Flavour
Suitable temperature for flavour & texture

Retains Moisture
Prevents dryness without wrapping

Quick Seasoning
Enhances faster seasoning absorption

Flexible Storage

Selectable Zone

The Selectable Zone feature allows you to customise mode settings based on your storage and lifestyle needs.

*1 Factory setting will be Moisture Cooling "ON". When the Moisture Cooling is ON, the total power consumption is increased by approx. 5%.

*2 For when the room temperature is stable and the room temperature is approx. 32 °C. * Tested by Hitachi. Moisture Cooling is not applicable for door pockets.

*3 Approximately 400 g of leaf salad (without wrap) stored for 24 hours. Room temperature about 20 °C, no door open/close. The humidity inside the cabinet is the average humidity of the shelf space. Humidity depends on the amount of storage in the refrigerator compartment, the food (type, condition, and amount of food), the number of times the refrigerator door is open/close, and the operating conditions. * Tested by Hitachi. The effect may differ depending on conditions and the amount of food stored.

*Tested by Hitachi. The effect may differ depending on conditions and amount of food stored.

Optimal Storage

Select Case (Dry Food - Vegetable)

Make your selection based on your storage needs.

Fresh Vegetables with Organised Storage

Separate Vegetable Compartment for long lasting freshness.

Triple Power Filters

Removes odour-causing components*¹ and bacteria by **99%***² throughout the entire refrigerator.

Ensures that the refrigerator including freezer compartment is filled with clean air, preventing the transfer of unpleasant odours.

Onion & Garlic

Raw Fish

Vinegar

* Tested by Hitachi. When storing approx. 1.7kg of vegetables in the Aero-care Vege Compartment (Lower case) at a room temperature of approx. 20 °C for 10 days without wrapping or opening/closing the door, the humidity inside the refrigerator will be 68-95%. Humidity varies depending on the amount and type of food being stored, freshness, and operating conditions of the refrigerator. Effects may differ depending on the type, state and the amount of vegetables.

* Tested by Hitachi.

Quick Cooling

When you want to cool quickly and powerfully, switch the Quick Cooling mode ON which cools approx. 29%* faster.

Energy Saving

INVERTER × Dual Fan Cooling

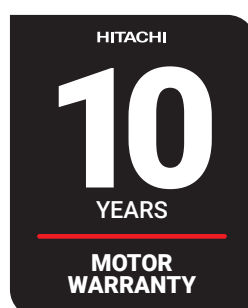

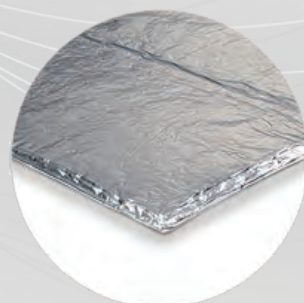

Provides optimum cooling in both the freezer and refrigerator compartments, something a single fan cannot do. Improved Dual Fan Cooling with dedicated fans for each compartment ensures energy saving and powerful cooling. This is supported by the Eco Thermo-Sensor in each compartment that detects any temperature change separately to enable the ideal temperature change to be maintained in each of the compartments at all times.

Energy Saving Technology VIP*

Vacuum Insulation Panel

VIP is a thin vacuum-insulated panel with extremely high heat insulation performance. This can reduce the thickness of insulation and keep the thermal conductivity low.

* The position number and shape of the VIPs used vary depending on the model.
* Images are for illustrative purposes only.

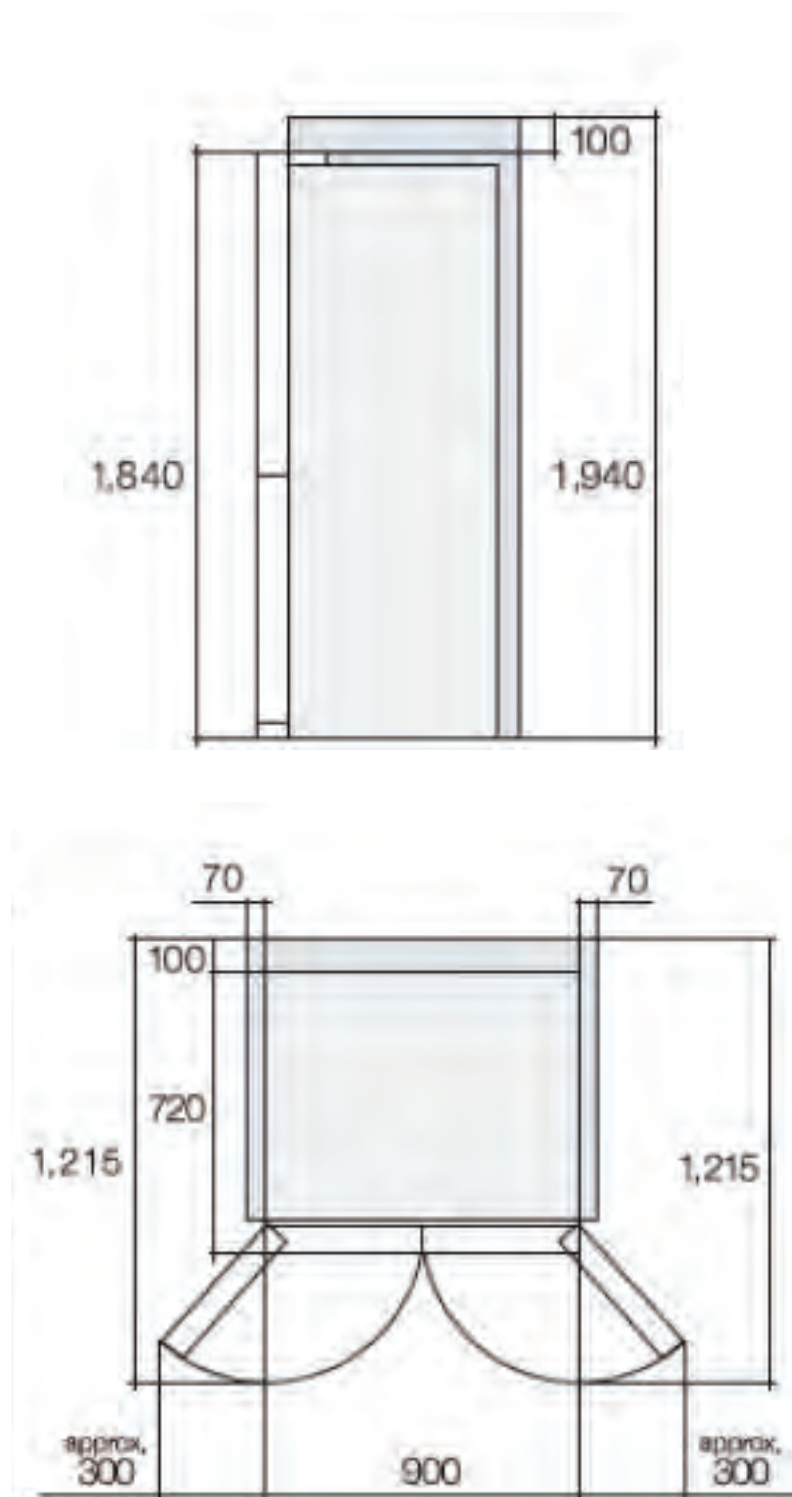

Specification

Model		R-WB640VT0X-1 MGW
Type		French Door / Four Door
Capacity	Total Volume (L)	569
	Freezer Volume (L)	197
	Fresh Food (L)	372
General / Performance	Colour	Matte Glass White
	Cooling System	Dual Fan Cooling
	Energy Rating	4 Star
	Energy Consumption at 32°C (kwh/year)	425
	Climate Class	SN-T
	INVERTER x Dual Fan Cooling	●
Features	Dual Sensing Control (with Eco Thermo-Sensor)	●
	Touch Screen Control	●
	Energy Saving VIP Technology	●
Fridge Compartment	Vacuum Compartment	●
	Selectable Zone	●
	Triple Power Filter	●
	Select Case (Dry ↔ Vegetable)	●
	Height Adjustable Shelves	2
	Tempered Glass Shelves	●
	LED Illumination	LED on Ceiling
Freezer Compartment	Delicious Freezing/Quick Freeze	●
	Automatic Ice Maker	●
	Sku	990115100396
	EAN	8850207543129
	Warranty	5 Years Product, 10 Years Compressor (parts only)
Dimension & Weight	Width (mm)	900
	Height (mm)	1840
	Depth (mm)	720
	Weight (Net/Gross, kg)	116/124
