The Art of Ease

Effortlessly Washing Up Multiple Dishes with Sparkling Results

Surround Wash

Surround Wash technology* ensures that no corner of your machine is left uncleaned, with powerful spray arms reaching every spot - including those tricky corners.

*Tested internally by comparing products with and without Surround Wash Feature.
*Applied to HDF-F158CVGB model only.

Intense Wash

- Bottles and other items up to 30 cm in depth can be washed in the specialized zone located on the bottom rack.
- Intense Wash creates a powerful cleaning zone with intense water pressure and offers up to 5 times* better cleaning performance.

*Internal test results conducted vs. various stains using Intensive 70 program.
*Applied to HDF-F158CVGB model only.

Glass Care

A special cycle designed for glass protection; the Glass Care programme provides gentle washing at 40 °C

Rapid 58

If you're short on time, Rapid 58 is the ideal programme for quick cleaning and drying performance in just 58 minutes.

Hygiene Care

When selecting the Hygiene Care function, the washing cycle temperature is raised to at least 60 °C, with an additional 30 minutes of hot rinse cycle (min. 70 °C). This high temperature generates a steam mist that effectively eliminates 99.999% of bacteria and viruses* by reaching every dish.

*Test conducted in Intensive 70 program on microorganisms: Enterococcus faecium, bovine Coronavirus murine Norovirus.

Auto Open Door with Automatic Self Dry

After completing the drying cycle, the door opens by about 10 cm, allowing fresh air circulation to remove moist hot air from the inside of the dishwasher. This natural airflow boosts drying efficiency.

*This image is for illustrative purposes only.
*Applied to HDF-F158CVGB model only.

Sliding Cutlery Basket

A removable sliding cutlery basket provides added convenience for dish placement

Flexible Cutlery Drawer

Maximize the use of available space by effortlessly loading all types of dishes and washable items

*Applied to HDF-F158CVGB model only.

Inverter Motor

Hitachi dishwashers use an energy-efficient, brushless inverter motor. The motor not only reduces noise but also enhances performance and durability.

Recycled PET Chasis

Hitachi dishwashers have an eco-friendly chassis made from recycled plastic bottles, which not only protects your dishes but also the environment.
