

HITACHI

**Hitachi Top Load
Washing Machine**

The Art of Ease

Surprisingly Bright!

Ultra Power Powerful Jets and 4-Step Washing*1

Hitachi top loading washing machines remove dirt and stains with powerful water jets and 4-step washing.

Powerful Jets

Besides agitation of clothes with a pulsator, powerful water jets reach items at various water levels and circulate them vertically and horizontally for a multi-directional washing effect.

4-Step Wash

Thoroughly penetrates deep into fabrics to effectively remove stubborn stains by controlling the water level to dissolve the detergent in 4 steps and to maximize cleaning power.

Clean Inside Auto Self Clean-The Tub Stain Fighter

**AUTO
SELF
CLEAN**

99% Mould & Bacteria Reduction

A shower of clean water cleans both the tubs as the stainless steel tub rotates at high speed to powerfully agitate water in the tub and clean off dirt.

With Auto Self Clean

Without Auto Self Clean

○Tested by Kitasato Research Center for Environmental Science.
 ○Document Number: 26_0100 ○Test method: Measurement of the reduction rate of germs smeared on plates that are attached to the outer tub and drum. ○Means for germs removal: Use of the Auto Self Clean function.
 ○Test objects: Outer tub and drum. ○Test result: Germs reduction rate: 99%.
 ○Document Number: 26_1100 ○Test method: Confirmation of the inhibitory effect of mould growth on medium plates that are attached to the outer tub and drum. ○Means for preventing mold growth: Use of the Auto Self Clean function. ○Test objects: Outer tub and drum. ○Test result: Mould reduction rate: 99%

Simplify Your Laundry Routine with Top-Loading Efficiency

New Hitachi Top Loading Washing Machine is here to redefine your laundry experience. Engineered for top-tier efficiency and convenience, it pampers your clothes while delivering a thorough cleaning. Simplify your laundry routine and enjoy an effortless and effective washing experience in the comfort of your home.

Half Load Programme

Designed for short and regular laundry convenience, the Half Load Programme^{*1} washes up in approximately 29 minutes.

Speed Wash Programme

Combining speed and care to keep your everyday clothing and leisure wear fresh and ready, the Speed Wash Programme^{*2} is optimised to wash up in just 20 minutes.

Dual Waterfall with Efficient Interior Impeller Design

The innovative Dual Waterfall feature is purposefully designed with a two-tier waterfall channel that works with both high and low wash loads, ensuring extensive coverage for your clothing. For ultimate clothing care and optimal washing efficiency, the interior impeller creates strong water movement help reduce washing time, decrease water usage by 17%^{*3}, and enhance energy efficiency by 10%^{*3}.

Hand Wash Mode

With the convenient built-in water faucet for hand washing^{*4}, you can pretreat stained or soiled clothing, ensuring a careful and thorough approach to your delicate items, while preventing them from mingling directly with other garments during laundry.

Stain Programme

Two intelligent stain removal programmes^{*4} smartly treat everyday stains such as sauces, mud, and sweat as well as more heavily soiled items of clothing by adjusting water temperature, soak time, and detergent concentration.

^{*1} Based on a maximum load weight of 6 kg. | Half Load programme test according IEC 60335.
^{*2} Based on a maximum load weight of 2 kg. | Speed Wash programme test according IEC60456.

^{*3} Normal programme performance test according IEC standard.
^{*4} Tested by Arcelec Hitachi Home Appliances.

Tangle Free Finish

The unique tangle-free finish¹ minimises the tangling and twisting of clothes following the completion of a cycle, making it ideal for delicate fabrics. Additional movements help to carefully untangle laundry, resulting in easier unloading.

Auto Self Clean

Following the completion of each washing cycle, the Auto Self Clean feature uses drum rotation and automatically cleanse both the interior and exterior tubs, effectively reducing dirt, mould & bacteria ensure cleaning is maintained.

Inverter Motor

The inverter motor is designed for energy efficiency, delivering optimal washing performance while saving on energy. Durable technology also reduces noise and vibration for a quieter laundry experience.

Soaking

The soak function² is designed to effortlessly tackle heavily soiled clothes. It works by gently loosening tough stains before the main wash cycle begins. The drum fills with water, immerses clothing in detergent, and provides gentle agitation for a set time, ensuring a thorough pre-treatment.

Flexible Detergent Drawer

The Flexible Detergent Drawer², equipped with a rotary mechanism, accommodates both liquid and powder detergents for seamless and smooth dispensing. Intuitive indicators guide you to the optimal detergent measurement for your selected wash programme, ensuring efficient dissolving and a hassle-free laundry experience.

Fragrance

Savour the feeling of fresh-scented laundry with Fragrance programme². With longer exposure to fabric softener, your clothing is beautifully fragrant every single wash, ensuring a longer-lasting, delightful freshness.

Wash Mode Function

Discover more versatility with a comprehensive range of washing modes. From quick and convenient washes to hygiene-focused cycles and targeted stain removal programmes. You can even feel at ease with your delicate fabrics, knowing every load will be gently laundered with care.

Air Jet Dry

Enjoy shorter drying times with the Air Jet Dry² feature, as high-speed drum rotation efficiently reduces moisture from your laundry, ensuring faster drying for your clothing.

Ease of Loading

Simplify your laundry routine with a top-loading washing machine thoughtfully designed for seamless loading³ convenience.

Rear Control Panel

The rear control panel³ is thoughtfully designed for ergonomic convenience, ensuring that all controls are within easy reach. The inclined panel design remains dry when unloading clothes, thus ensuring practical functionality.

Easy to Reach

Experience easy laundry unloading with the shallower depth design that maintains generous capacity without the need for overreaching³.

¹ Tangle Free Finish is tested by ArceLIK Hitachi Home Appliances.
² Tested by ArceLIK Hitachi Home Appliances.

³ Usability test.

Glass Durability

The tempered glass lid^{*1} is highly durable and not only resists damage and scratches but also adds a touch of elegance to your laundry space.

Lid Lock

The top-loading washing machine features a secure lid lock^{*2} that remains in place until the washing cycle completes, ensuring safe and uninterrupted operation for your peace of mind.

Soft Close

The soft-closing lid^{*2}, designed for both safety and practicality, adds a touch of serenity to your laundry rituals. Closing gently and quietly allows you to effortlessly continue with your tasks, even when carrying a laundry basket, for a comfortable and convenient laundry experience.

Smart Wash

Save water with our load-sensing technology. The machine automatically detects the load size and adjusts the water level accordingly, delivering a flexible and efficient wash every time.

Auto Balancer

Auto Balancer detects when the machine is unbalanced and automatically rearranges the clothes to ensure even load distribution, reducing vibration and noise for improved performance and durability.
