**The Art of Ease**

## Surround Cooling

The air circulation system minimises the direct contact of cold air with perishable food, whilst the no-frost cooling system optimises the distribution of cool, flowing air from behind the back wall, ensuring a more even cooling around the shelves. The Surround Air Cooling system maintains food under a gentle airflow, preserving optimal freshness.

## Double-Deck Vegetable Storage

Position the drawer above the Vegetable Compartment, to benefit from a second storage space for vegetables.

## Flexible Fresh Select

Flexible and Optimal Storage. Select the position and mode of the drawer based on your storage needs. Flexible enough to be located on the top or bottom of the refrigerator. The inside temperature is adjustable by switching between vegetable and dairy / meat modes when positioned in the original storage position.

**INVERTER**

Energy Saving	Surround Air Cooling
Stabiliser Free	Long Cool Keeper (12 Hours)

## Tempered Glass Shelves

Highly durable, scratch-proof, and heat-resistant shelves hold up to 100kg each for all your storage needs.

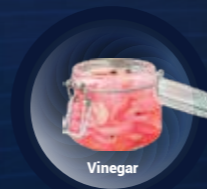

\*Weight resistance of the tempered glass. Images are for illustrative purpose only.

## Triple Power Filters

Removes odour-causing components<sup>\*1</sup> and bacteria by **99%**<sup>\*2</sup> throughout the entire refrigerator.

Ensures that the refrigerator including freezer compartment is filled with clean air, preventing the transfer of unpleasant odours.

## Door Racks

With a 6-litre beverage capacity,<sup>\*3</sup> the practical and secure door rack is designed for convenience.

## Efficient Inverter Compressor

### 10 years warranty

Hitachi refrigerators use an energy-efficient, electronically controlled inverter compressor. The compressor provides powerful cooling and lowers noise.

\*1 Triple Power Filter that catches and removes 7 odour components (Tested by Hitachi. The type of odours : Methyl Mercaptan, Ammonia, Acetaldehyde, Trimethylamine, Propanal, Hexanal and Acetic Acid).  
\*2 Thus also provides a sterilising effect. Combining the properties of Activated Carbon, Zeolite and Manganese Oxide (catalyst), the filter greatly reduces the percentage of odours present over time.  
Testing organisation : Boken Quality Evaluation Institute. Testing method : Film adhesion method (JISZ2801). Name of processing component : Filter. Sterilisation method : Application of oxidation catalyst to filter.  
Subject : Bacteria trapped in filter. Test results : 99% sterilised after 24 hours, achieved using the filter alone. No effect on the environment and food inside the refrigerator.

\*3 Tested by Arçelik Hitachi Home Appliances. Beverage door rack has capacity to store four 1.5 litre bottles.

## Vegetable Mode

Ensures the fresh preservation of soft fruits and vegetables that are easily damaged.

## Dairy / Meat Mode

Use the drawer as a chiller. Maintains meat and fish freshness, softly thaws frozen foods, and rapidly cools drinks.

## Vegetable Compartment

Preserves freshness and maximize storage space for your fruit and vegetables, maintains the optimum moisture level.

## Freezer Tempered Glass Shelf

The freezer compartment's tempered glass shelf offers safety and style, with its robust construction and premium finish.

## Door Alarm

Designed to alert you when the door is left open, ensures that your food stays fresh and your energy bills stay low.

## Illumination

Energy-saving LED lights provide ample illumination for a clear view of the thoughtfully crafted interior.
