

HITACHI

A side-by-side Hitachi refrigerator is the central focus, set in a modern kitchen with dark wood cabinetry and a large window overlooking a city at sunset. The refrigerator's glass doors reflect the warm light from the window. The kitchen counter features a silver teapot and a vase with autumn leaves. The overall atmosphere is sophisticated and serene.

The Art of Ease

A New Horizon in The Art of Preserving Flavour

Dual Surround Cooling

Hitachi's advanced cooling technology preserves food in an optimal environment with 80% humidity*1 and keeps it fresher for longer. The Dual Surround Cooling provides completely independent cooling for the freezer and refrigerator to ensure even cooling and efficient air distribution. The compressor delivers gentle airflow that maintains freshness without frost build-up and provides precise temperature control for better energy efficiency.

10 years Compressor Warranty

Hitachi's energy efficient inverter compressor is electronically controlled and able to provide exceptionally powerful cooling and lower sound.

Extra Large Door Racks

Enjoy extra convenience with a larger door rack that easily fits 3 gallon bottles*2 along with a new egg tray bucket for storing up to 25 eggs and a portable bucket for flexible storage.

Quick Cool

When you want to cool items quicker and more powerfully, switch the Quick Cooling mode ON. This cools items approx. 29%*3 faster.

Quick Freeze

Enable Quick Freezing mode for fast, powerful freezing and automatic freezer temperature control. Enjoy 15% faster*4 freezing to lock in freshness and prevent nutrient loss.

Modular Twist Ice Maker

Just twist the lever of the ice maker, the ice can be made easily. When you want to make ice quickly, switch the Quick Freezing mode ON.

*1 Approximately 400 g of leaf salad (without wrap) stored for 24 hours. Room temperature about 20°C. The humidity inside the cabinet is the average humidity of the shelf space.
*2 Tested with 2L gallon bottles by Arcelik Hitachi Home Appliances

*3 Tested by Hitachi. Comparison between Quick Cooling mode ON and OFF.
*4 Tested by Hitachi. Comparison between Quick Freeze mode ON and OFF.
* Images are for illustrative purposes only.

Selectable Zone

The Selectable Zone feature allows you to customise mode settings to suit your storage and lifestyle needs.

Refrigerator 3°C
Easily select the Refrigerator mode within the Selectable Zone to create additional storage space for drinks and food.

Chill 0°C
Preserve the freshness of your dairy, meat, and dry goods by storing them at the ideal temperature of approx. 0°C (±2°C) within the Selectable Zone compartment.

Soft Freeze -2°C
Choose the Soft Freeze setting to maintain meat and fish freshness at approximately 2°C, allowing for easy portioning and immediate cooking without defrosting.

Soft Freeze -2°C

Cook immediately without the need to defrost

Easy cutting
Softly frozen foods are easy to slice

Easy to prepare portions
Just take the amount you need

Cook immediately
Cook without the need to defrost the food

Hitachi LED Light

Premium Hitachi LED lights provides bright clear lighting for better visibility in both fridge and freezer with a smooth wake-up light effect easy on the eyes.

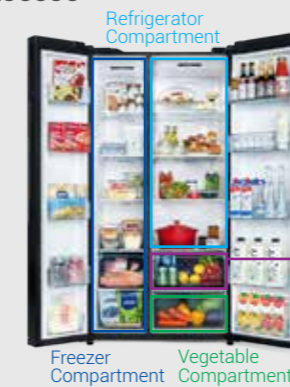

Larger Capacity

With a larger capacity of up to 656L, this refrigerator offers ample storage space perfectly designed to meet the needs of every family.

Dimensions (mm)

Refrigerator Compartment

- Tempered Glass Shelves
- New premium LED Light
- Quick Cooling
- Selectable Zone

Freezer Compartment

- Quick Freezing
- Tempered Glass Shelves
- LED Light

General Features

- Inverter Compressor
- Dual Surround Cooling
- Modular Twist Ice Tray
- Vacuum Insulation Panel
- Triple Power Filter
- Mouldproof Door Gasket
- No Frost ● CFC-Free

Improved Energy Saving VIP – Vacuum Insulation Panel Technology

VIP is a thin panel with a very fine glass fiber vacuum inside, giving an extremely high heat insulation performance - much higher than that of Urethane, a conventional insulation material. It prevents external heat from entering to achieve exceptional energy savings.

Triple Power Filters

Eliminates 99% of odor-causing components¹ and bacteria², preventing unpleasant smells from spreading throughout your fridge and freezer. Enjoy a fresh fridge and free from strong odors like onions, garlic, raw fish, and vinegar.

Onions and Garlic - Methyl Mercaptan;
Raw Fish - Ammonia; Vinegar - Acetaldehyde

Elegant Design

Seamlessly blending sleek design with everyday ergonomic and convenience, keeping food visible at eye level whether in the freezer or fresh food compartment for effortless use.

* Images are for illustrative purposes only.

¹ Triple Power Filter that catches and removes 7 odour components (Tested by Hitachi. The type of odours : Methyl Mercaptan, Ammonia, Acetaldehyde, Trimethylamine, Propanal, Hexanal and Acetic Acid).
² Thus also provides a sterilising effect. Combining the properties of Activated Carbon, Zeolite and Manganese Oxide (catalyst), the filter greatly reduces the percentage of odours present over time. Testing organisation : Boken Quality Evaluation Institute. Testing method : Film adhesion method (JISZ2801). Name of processing component : Filter. Sterilisation method : Application of oxidation catalyst to filter. Subject : Bacteria trapped in filter. Test results : 99% sterilised after 24 hours, achieved using the filter alone. No effect on the environment and food inside the refrigerator.

INVERTER

Dual Sensing Control

Energy Saving

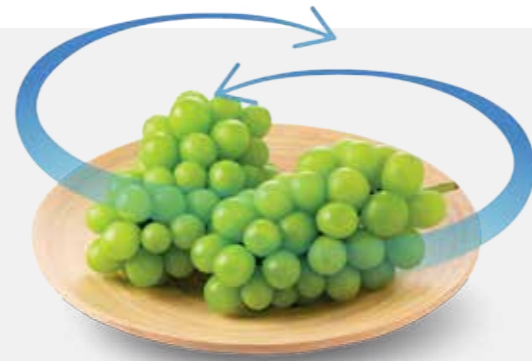

Quick Freezing

Surround Air Cooling

Humidity Control

Surround Air Cooling

The air circulation system blows less direct cold air on the food inside the whole fridge. No Frost cooling system optimizes the cold air distribution inside the refrigerator. Cool air comes from the sides of the sleek designed backwall and surrounds the shelves more equally. Surround Air Cooling keeps the food under a gentle air flow.

Quick Freezing

Enable Quick Freezing mode for fast, powerful freezing and automatic freezer temperature control. And automatically returns to normal freezer mode after 26 hours to preserve freshness and prevent nutrition loss.

Efficient Inverter Compressor

10 years warranty

Hitachi refrigerators use an energy-efficient, electronically controlled inverter compressor. The compressor provides powerful cooling and lowers noise.

Illuminated LED Lighting

LED in Refrigerator and Freezer Compartments. Energy saving anti-glare LED lights have been used not only in fresh food compartment but also freezer compartments.

Mirror Touch Controller

Flat panel controls let you change the settings with a simple touch. And a wipe is all it takes to clean the surface.

Dual Sensing Control

Hitachi refrigerators have two Eco Thermo-Sensors, one in the freezer compartment and the other in the refrigerator compartment. The sensors detect any temperature changes separately to enable the ideal temperatures to be maintained in each of the compartments at all times.
